

# R10 N95 POUCH RESPIRATOR

**R10 N95 Pouch Respirator** is a single-use respirator to be used by skilled professionals in critical environments who need to protect the process and are mandated to wear specific PPE to protect against the transfer of non-oil aerosolized particulate matter.

**Not tested against COVID-19 and therefore not recommended for efficacy or use. Not for medical use.**

## Product Description

| Code  | Description      | Color | Quantity                       |
|-------|------------------|-------|--------------------------------|
| 64235 | Pouch Respirator | White | 50/bag, 6 bags/case, 300 total |

## Construction

| Component    | Material                             |
|--------------|--------------------------------------|
| Inner facing | Non-irritating polypropylene         |
| Outer facing | Clean durable bicomponent material   |
| Filter Media | Electro-statically treated meltblown |
| Headband     | Elastomeric polypropylene material   |
| Nosepiece    | Flexible wire                        |

## Physical Properties

| Property              | Target                 | Test Method      |
|-----------------------|------------------------|------------------|
| NaCl Penetration      | <5% @ 85 lpm           | TEB-APR-STP-0059 |
| Exhalation Resistance | <25mm H <sub>2</sub> O | TEB-APR-STP-0003 |
| Inhalation Resistance | <35mm H <sub>2</sub> O | TEB-APR-STP-0007 |

## Features

- NIOSH certified: TC# 84A-9042
- Comfortable non-irritating lining
- Flat pouch-style breathing chamber for added comfort
- Headbands of bicomponent elastomer material
- Fits secure to face, helps ensure tight facial seal, and prevents leakage around edges
- Two layers of electro-statically treated meltblown filter media
- Provides a minimum of 95% filtration efficiency for 0.3 micron particles
- Not oil resistant
