

 Cut-Resistant

HyFlex® 11-627 Glove

Feel How Comfortable
Cut Protection Can Be.

Safety, high wear and fit, perfectly balanced.

The HyFlex® 11-627 glove features a polyurethane coating dipped on a liner structure of Dyneema® and LYCRA®. This innovative combination delivers a high level of abrasion along with cut protection while also preventing cuts and snags to the back of the hand. The palm coating provides dry grip and longer wear—so your workers can confidently handle small, sharp objects.

Optimize workforce performance.

Protect the hands of your workers and your productivity with the HyFlex 11-627 glove. Perfect for a wide range of applications, the unique glove structure offers excellent abrasion resistance, cut protection, dexterity and comfort. The polyurethane coating provides consistent wear and durability.

Ordering Info: Sizes & Packaging

Sizes: XS (6), S (7), M (8), L (9), XL (10) & XXL (11)
12 dozen per inner bag of 12 pairs—144 pairs per case

Ansell HyFlex Line

The HyFlex 11-627 glove is part of the HyFlex Cut-Resistant range. The HyFlex glove line is comprised of four premium performance ranges: Precision, Cut-Resistant, Oil-Repellant, and Specialty products. Products that provide “cut resistance” and “cut protection” do not completely prevent or eliminate the potential for cuts and punctures, and are not intended or tested to provide protection against powered blades or other sharp or rotating equipment. Users are encouraged to always use caution and care when handling sharp metals. For a comprehensive review of our HyFlex Precision Protection™ line, please visit www.hyflex.com or call 1-800-800-0444 to speak to a customer service representative.
