

# ALLOGEL<sup>®</sup> INNER COATING<sup>™</sup> MAGENTA<sup>™</sup>

## Powder Free Nitrile Examination Gloves with AlloGel<sup>®</sup> Inner Coating

*Finally! The Ultimate Nitrile Glove ... wrap your hands with soothing AlloGel<sup>®</sup> ... your answer to Perfect Hands.*

**AlloGel<sup>®</sup> MAGENTA<sup>™</sup>** nitrile gloves offer you all the ultra comfort you desire with the superior protection from punctures, chemical/bloodborne pathogens ... without latex allergy concerns.

ULTRA SOFT-STRETCH<sup>™</sup> provides excellent comfort and donning, along with superior fit. Unique formulation reduces hand fatigue. Micro-textured finish ensures slip-resistance, wet or dry. Superior tactile sensitivity for medical use such as handling delicate instruments.

COLOR-PERFECT<sup>™</sup> **MAGENTA<sup>™</sup>** ... unique.

**ALLOGEL<sup>®</sup> INNER COATING** ... caring for your hands with the following ingredients:

- **Allantoin** ... is a product found naturally in many plants including wheat germ, and comfrey roots. An exceptional healing, moisturizing, soothing and anti irritating agent, the addition of Allantoin to formulations results in softer, suppler skin. Allantoin is also a valuable cell proliferating and healing agent, which stimulates healthy tissue formation by promoting and accelerating the natural cell regeneration processes of the skin.
- **Collagen** ... is a high purity marine derived product, naturally produced in the marine environment. It is produced via an enzymatic process creating high compatability with human skin. Collagen improves the moisture content of skin due to its film forming and moisture binding properties. It is effective at all pH levels.
- **Silicone** Silicone Polymer has barrier and unique glove donning properties. A thin layer silicone helps separate the skin from the synthetic material of the glove. It also helps to seal in the moisture and known therapeutic properties of Allantoin and Collagen, on to the user's skin.

**ALLOGEL<sup>®</sup> INNER COATING**  
 Naturally, your answer to Perfect Hands!<sup>™</sup>
