

THE BEST DEFENSE

THE DIFFERENCE

Is a Strong Prefense

Prefense is a revolutionary new hand sanitizer that protects against all strains of staph, strep, E.coli, drug resistant MRSA and more with just one application daily!

The patented, alcohol-free formula soothes and moisturizes hands and offers proactive security. Prefense's active ingredient binds to skin and dries into an invisible protective film that stands guard against pathogens encountered throughout the day. If a germ transfer occurs, Prefense actively slices the cell wall of pathogens for up to 24 hours or ten hand washings. It can also be used to sanitizer surfaces for protection that lasts up to 28 days! Simply dip, spray or soak and dry!

Upgrade to the new generation of hand sanitizers

Prefense easily out-performs the competition. Upgrade to the newest generation of hand and surface sanitizer to safeguard against today's germs.

Active Ingredient FDA approved Amosilq (Benzalkonium Chloride/Silica Complex... 0.12%
Benzalkonium Chloride (aka BAC) has been long considered by medical professionals for being one of the safest compounds. BAC has been used for the past 40 years in a wide variety of consumer and healthcare related antiseptic and antibacterial products including spermicidal foams, dinner wipes, ophthalmic, cosmetic and food preservatives

Prefense vs Other Sanitizers

Last for hours	Gone in seconds
Silica/water based	Alcohol based
No-mess foam	Can stain
Moisturizes skin	Dries out skin
Safe for everyone	Toxic & flammable
Penetrates dirt	Does not penetrate dirt
Hypoallergenic	Skin irritant
Surface protectant	Not safe for surfaces
