Glass  
HVAC  
Automotive  
Appliance Manufacturing

## Kevlar® String Knit Glove

Kevlar® is considered the most important man-made fiber discovery since nylon. No other fiber has its unique combination of properties. It provides excellent protection against both cutting hazards and burn hazards, while being lightweight and comfortable. Kevlar® will not melt or drip on contact with open flame. Superior manufactures a variety of Kevlar® string knit gloves to cover a range of needs. 13-gauge string knit that offers excellent cut and slash resistance, making this glove ideal for handling metal stampings, glass and other sharp-edged materials while providing seamless comfort and dexterity.
