## Touchscreen Compatible Goat-Grain Driver Gloves

#378GTS

Automation in the workplace has been dramatically rising. Fueling a massive increase in electronic devices to measure, monitor and control industrial processes. Touchscreen technology is becoming the natural choice for interfacing with industrial machines. The 378GTS is the ideal work glove for jobs requiring work with hand held devices, touchscreens and tablets. The forchette dress glove style pattern makes this style the most form fitting and dexterous in our leather glove line up. The conductive touchscreen fingertips are very durable and long wearing. The goat grain leather is soft, supple and yet amazingly tough and strong.
