

#S18TAFGFN

# TenActiv™

Composite Filament Fiber Level-4  
Cut-Resistant Knit with Foam Nitrile Palms

#S18TAFGFN

TouchScreen  
compatible.

Introducing the world's first 18-gauge ASTM cut-level 4 work glove. This is truly unparalleled cut resistance in a glove so dexterous and with such high tactile sensitivity. After two years in the research and development stages, we have perfected the cut-resistant glove.

High-strength composite filament fiber (which boosts cut resistance) is incorporated in a way that it cannot come through to the hand for total comfort and extended glove life. All TenActiv™ gloves feature lint-free, continuous filament yarn that is stronger than steel on an equal-weight basis.

The black glove body and palm coating hide dirt and therefore allow the glove to maintain its sharp aesthetic. The foam nitrile coating offers the best combination of flexibility, wear, wet grip and was tested silicone free.

Don't let the bare hand feel fool you, this is a serious piece of glove engineering with stellar performance numbers.

Made in Canada.

## TENACTIV™

1617 grams of cut protection.

### FEATURES

- Fine, bare hand feel
- Nitrile palm for excellent grip
- Silicone free
- Fine-gauge ASTM cut-level 4 protection
- High-strength fiber is incorporated in a way that it cannot come through to the hand for total comfort and extended glove life
- TenActiv™ gloves feature lint-free, continuous filament yarn that is stronger than steel on an equal-weight basis

### APPLICATIONS

Handling Sharp Objects  
Glass Plants  
Construction  
Automotive Industry  
Aerospace Industry  
Metal Fabrication  
Metal Stamping

### AVAILABLE SIZES

Canadian Office and Factory | US Warehouse  
Acton, ON Canada | Buffalo, NY USA
